

Never get your pricing or break-even calculations wrong again. This worksheet works a lot like a Sudoku puzzle. Only one number can fit logically in each square. Use it to determine the price of an item, figure out how much more you must sell if you add operating expense, or calculate break-even for you company.

	\$	%
SALES	<input type="text"/>	100%
- Cost of Sales	<input type="text"/>	<input type="text"/>
Gross Profit	<input type="text"/>	<input type="text"/>
- Operating Expenses	<input type="text"/>	<input type="text"/>
Net Operating Profit	<input type="text"/>	<input type="text"/>
